

# *Humanities on Trial: The Case of Philosophy*

## **A Wellness Passport Event**

Wed Oct 19 6-7:30pm Bate 1010

There is an ongoing controversy over the proper role of the humanities and philosophy in particular in a university education. Several prominent politicians and scientists have publically claimed that there is little or no value in studying philosophy.

This event will address that issue by offering arguments on both sides and putting it up for a vote. Should we have philosophy in our universities or not?
